

Kansas Limited Large Customer Economic Development Rider Criteria Including A New Kansas 10 Year EDR For 25MW Projects or Larger

Purpose

Encourage industrial and commercial business development in Evergy Kansas territory and retain existing load where possible.

Incentive Values

The EDR provides a discount over ten (10) years equating to nearly three free years' worth of electricity: 40% discount year 1, 40% year 2, 40% year 3, 40% year 4 and 40% year 5. Followed by 20% discount year 6, 20% discount year 7, 20% discount year 8, 20% discount year 9, 20% discount year 10.

Eligibility Criteria

1. The EDR is available only in conjunction with local, regional and state economic development activities where an incentive has been offered and accepted by the customer to locate a new facility, expand existing facilities, or retain existing facilities in the Evergy Kansas Service Territory.
 - If the project is an expansion of existing facilities, only the new/incremental electric load is eligible to receive the EDR.
 - A new facility is defined as a customer's facility that has not received electric service in Evergy's combined service area within the last twelve (12) months.
2. The annual load factor for the new or additional facility is reasonably projected to equal or exceed 55% within two years of receiving the EDR. The load factor must be maintained at or above 55% in years three through five.
3. The peak demand is reasonably projected to be at least three hundred (300) kW and or 25+ megawatts within two years and maintained at least 300 kW and or 25+ megawatts in years three (3) through five (5).
 - a. If peak demand is reasonably projected to be at least 25 megawatts within two years of the date the customer first receives service under the discounted rate and is not the result of shifting existing demand from other facilities of the

customer in the electric public utility's certified service territory and maintain the peak demand and load factor for the remaining duration of the discounted rate.

4. New/expanded load must be separately metered unless determined infeasible by Evergy.
5. Applicable for service for the Company's non-residential and non-lighting rate schedules
6. Revenues received from a Customer must be greater than the applicable incremental cost to provide electric service as determined by Evergy
7. Limited to industrial or commercial facilities whose product or service is not primarily sold directly to the local retail market.
8. EDR is not available in conjunction with any other special contract arrangements with Evergy.
9. A completed EDR application must be returned to Evergy prior to a project announcement.
10. The customer is responsible for notifying Evergy Economic Development to commence the EDR discounts.

An estimated initial starting date for the EDR needs to be stated on the application. However, the customer has six (6) months from the date the permanent meter is installed to commence the EDR discounts. This provides the customer time to fully establish their operations prior to the EDR taking effect.

**5 Year EDR for
300kW+ Projects**

**40% discount
for 5 YEARS**

**10 Year EDR for
25MW+ Projects**

**40% discount
for YEARS 1-5**

**20% discount
for YEARS 6-10**
