

Kansas Standard Economic Development Rider Criteria

Purpose

Encourage and stimulate industrial and commercial business in Kansas.

Incentive Value

The EDR provides a discount over five (5) years equating to one free year's worth of electricity: 20% discount year 1, 20% year 2, 20% year 3, 20% year 4 and 20% year 5.

Eligibility Criteria

1. The EDR is available only in conjunction with local, regional and state economic development activities where an incentive has been offered and accepted by the customer to locate new or expand existing facilities in Evergy's Kansas service area.
 - a. A new facility is defined as a customer's facility that has not received electric service in Evergy's combined service area within the last twelve (12) months.
 - b. If the project is an expansion of existing facilities, only the new/incremental electric load is eligible to receive the EDR.
2. The annual load factor for the new or additional facility is reasonably projected to equal or exceed Evergy Service Territory annual system load factor within two (2) years of receiving the EDR. Historically, this system load factor is approximately 50 percent. If the load factor criterion is not met, Evergy may consider, but not be limited to, the following factors expected within two (2) years of receiving the EDR when determining qualification:
 - a. Number of new permanent full-time jobs created or the percentage increase in existing permanent full-time jobs;
 - b. Capital investment;
 - c. Additional off-peak usage;
 - d. Curtailable/interruptible load;
 - e. New industry or technology;
 - f. Competition with existing industrial customers.
3. The new or additional facility must utilize or increase its load by a minimum of 200 KW within two (2) years of receiving the EDR.

4. New/expanded load must be separately metered.
5. Applicable for service for the Company's non-residential and non-lighting rate schedules.
6. No retail activity (selling direct to the public)
7. EDR is not available in conjunction with any other special contract arrangements with Evergy.
8. A completed EDR application must be returned to Evergy prior to a project announcement.
9. The customer is responsible for notifying Evergy Economic Development to commence the EDR discounts.

An initial starting date for the EDR needs to be stated on the application. However, the customer has twelve (12) months from the time electric payments are made to formalize a starting date for the EDR with their customer service representative. This provides the customer time to fully establish their operations prior to the EDR taking effect.

EDR discount over FIVE years

20% YEAR 1

20% YEAR 2

20% YEAR 3

20% YEAR 4

20% YEAR 5

Minimum 200 kw and 55% load
